Roadmap

Malthus vs. Boserup

Advantages and disadvantages of renewable and non-renewable energy resources

Conflict over resources: Water Wars

Managing resource consumption: UK case study

Rivers and Glaciation Glaciation and climate change – glacier change through deposition and erosional processes Glacier change through deposition and erosional processes

Access to Resource s

> Focus on desert ecosystem: features, adaptations & human uses

Focus on the taiga and rainforest: features, adaptations and threats, sustainability and people

Introduction to ecosystems and where they are located

Ecosystems

Case study: Why is Yemen so economically poor?
Conflict in the Middle
East. Case studies: Israel
& State of Palestine &
Syria

Intro to Middle East: climate, physical geog, population & economy

Development and Globalisation What is development, how do we measure it and what is the development gap?

Malawi case study -Introduction to India and how development varies within the country What is globalisation? Nike case study - globalisation in India Top down development schemes.

Middle East How has the UAE developed?
